

Early season
incidence

Susceptible
population

Environment for
Transmission

Annual Incidence

```
graph TD; A[Early season incidence] --> D[Annual Incidence]; B[Susceptible population] --> D; C[Environment for Transmission] --> D;
```

The diagram is a flowchart with three rectangular boxes at the top and one at the bottom. The top boxes are labeled 'Early season incidence', 'Susceptible population', and 'Environment for Transmission'. Arrows from each of these three boxes point downwards to a single box at the bottom labeled 'Annual Incidence'.
